

Purpose of Workshop

- ▶ To provide an interactive educational and informative working session
- ▶ What you can expect to gain:
 - Introduction to the Single Administrator concept
 - Definition of the Single Administrator Concept
 - Key principles
 - Understand how it all began

Background

- ▶ How did we get here?
 - Single Third Party Administrator (STPA) Concept becomes one of the top five year plan priorities
 - In September 2007, staff initiates STPA RFI Analysis
 - RFI Analysis requires

Background

- In January 2008, CalPERS executive staff met with RFI participating plans to discuss the concept and concept models
- In February 2008, Mercer produces RFI reports
 - STPA RFI Executive Summary report (Appendix F)

Defining the Concept

- The Single Administrator concept involves consolidating the administration and program development activities for the multiple plan options offered by CalPERS under a single health plan partner

Guiding Principles

- ▶ Reduce and/or minimize administrative cost increases over the next 10 years.
- ▶ Streamline efficiencies by increasing standardization across plans
 - Pharmacy Benefits Manager (PBM)
 - Health and Disease Management (H&DM) programs
- ▶ Achieve potential cost savings
- ▶ Improve the quality of care
- ▶ Reduce adverse risk selection

Questions
